

I am writing to endorse the very competent, creative, and dynamic services of Judy Basso, event planner. My husband and I contacted Judy after experiencing disappointing communication with several other wedding planners around providing us with artistic and practical direction for our 1920's themed wedding. Upon first contact with Judy, my husband and I were immediately impressed by her astute ability to clearly interpret our vision and articulate concrete and innovative ways for it to come to fruition. Judy was passionate, articulate, and driven throughout our year long working relationship. Whenever we had an inquiry or needed to consult, Judy responded promptly and clearly, in written and verbal format.

As my husband and I reside on the west coast and had little knowledge of the vendors in Kamloops, we were greatly relieved to discover how well connected Judy is to a variety of local business and service providers in the Kamloops area. Her ease at networking is indicative of her proficiency in relationship building, professionalism, and accountability.

Judy was consistently compassionate, genuine, and patient in her approach, keeping us focused and realistic, even when our ideas were not compatible with our wedding budget. We are indebted to Judy for making wedding planning a seamless and joyful process rather than the arduous and painstaking task it could have been.

Sincerely,

Sherisse and Dennis
Wedding, September 10, 2011
